

PARKING LOT DROP OFF AND PICK UP PROCEDURES

The Dimmick Grade School parking lot was renovated this summer to improve traffic flow, safety and increase parking capacity. As a result, drop off and pick up procedures have changed. Please be sure to carefully review procedures outlined below.

BUS RIDER PROCEDURES

AM: All students must have masks on and a pink signed parent symptom certification form to board the bus each morning. Students will not be permitted to board the bus without both items. Students will proceed to their assigned seat and remain seated until it is time to exit the bus at the school. Masks must be worn the entire time students are on the bus. Buses will enter from the east parking lot marked "Entrance" and proceed along the concrete pavement marked "Bus Lane" along the front sidewalk and drop off students at the entrance doors marked "#13". Students will exit the bus and proceed to the symptom screening station at door #13 before entering the building. Buses will arrive at approximately 8:20AM

PM: Students will be dismissed at 1:45PM. At dismissal, buses will be parked along the front sidewalk on the bus lane in order with #1 parked all the way to the west and then #2, #3 and #4 behind. Students riding the bus will be dismissed from door #13. All bus riders will be dismissed before car riders. Students are to board the bus wearing their masks and keep them on until they exit the bus at their stop.

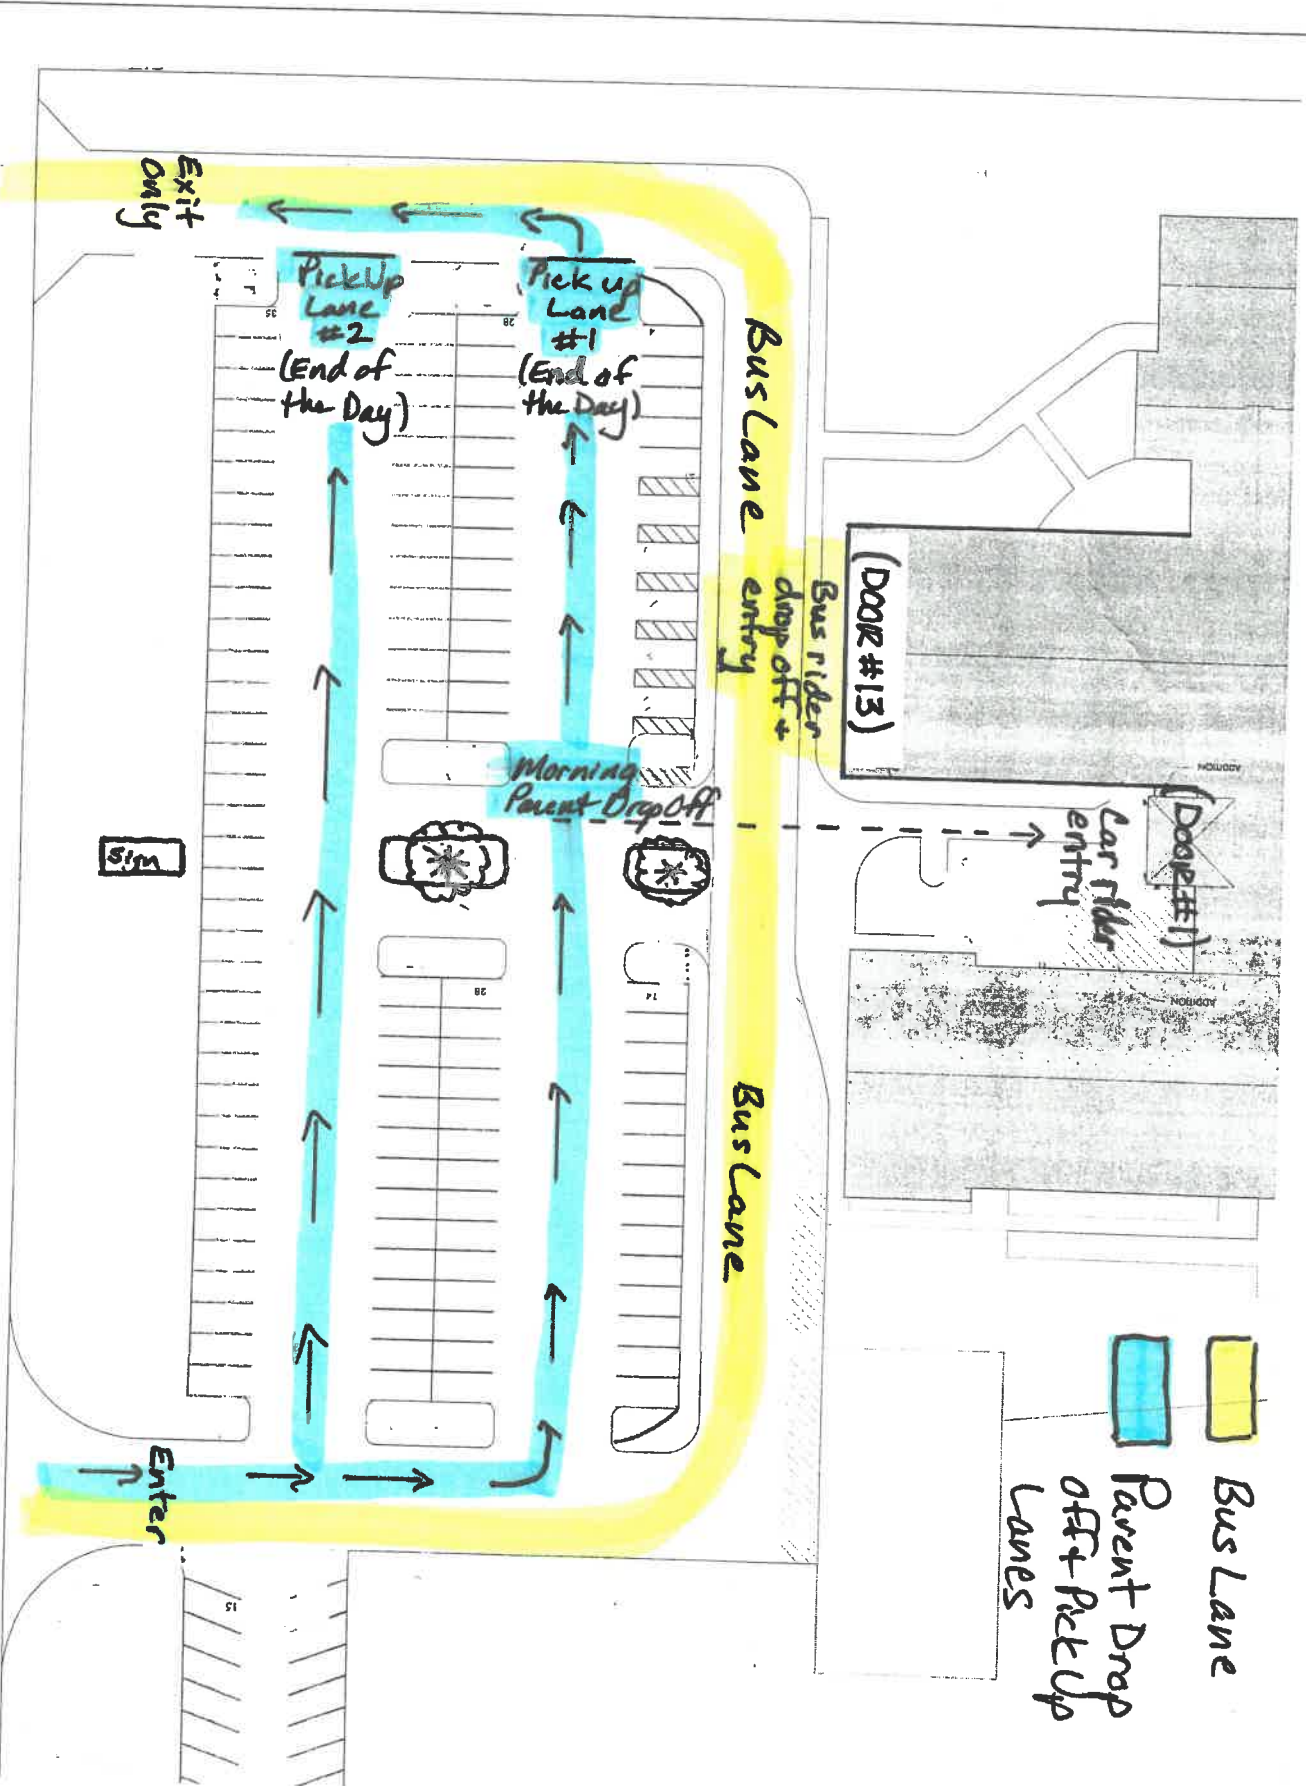

PLEASE NOTE: *Students who remove their masks while riding the bus will receive a referral. If a student receives a 2nd referral, they will not be permitted to ride the bus for 5 school days. A third referral will result in the student being removed from the bus for the remainder of the trimester.*

CAR RIDER PROCEDURES

AM: *Please note, student should NOT be at school if they are exhibiting any COVID related symptoms (Coughing, shortness of breath, difficulty breathing, fever, chills, muscle or body aches, vomiting, diarrhea, loss of taste or smell).* Parents need to enter from the east parking lot marked "Entrance" and then turn left at the second parking lane onto the blacktop and proceed west until you reach the two cones. Watch for the buses before exiting the vehicle. When safe, students will exit the vehicle and proceed to the main entry doors marked "#1". Students will go to the symptom screening station at door #1 before entering the building. Parents need to drop off between 8:00AM and 8:20AM. Please be sure to carefully watch for the buses before exiting the parking lot.

PM: Dismissal time will be 1:45PM. All bus riders will be dismissed first. After the buses have left the parking lot, we will dismiss car riders from door "#13". When you arrive, enter through the east parking lot marked "entrance" and turn left onto the blacktop parking lot where you dropped off in the morning and proceed west until you reach the line at the end of the row marked "Pick Up Lane #1". This is where the pickup line will form. If that row is full, then take the 1st left turn onto the blacktop and proceed to "Pick Up Lane #2" and follow the same procedures. All cars must remain parked until students are safely in their vehicles, then those in Pickup Lane #1 will depart 1st followed by those in Pickup lane #2. All vehicles must remain in line and follow the vehicle in front of you to the exit the parking lot safely.

PLEASE NOTE: If you need to enter the building for any reason pull into a parking spot so that you do not prevent others from leaving. You must call ahead to make an appointment to enter the building and masks must be worn at all times.
